(2) *Findings.* The outside parking or outside storage of recreational vehicles on or abutting residential district properties, if unregulated, is found to have a detrimental influence upon the public health, safety, prosperity, good order and general welfare in residential districts. The detrimental impacts include, but are not limited to, obstruction of view on streets and private properties; preventing full use of residential streets for residential parking; creating a cluttered and unsightly area; creating overcrowding if the recreational vehicles are used as a residence; creating environmental hazards if the recreational vehicles are not properly maintained or are stored for excessive periods of time; detrimentally impacting the essential residential character of the neighborhood if the vehicle is stored and not used by the occupants of the principal dwelling for the vehicle's intended purpose as a recreational vehicle; and otherwise adversely affecting residential property values and the character of the neighborhood.

(3) *Nuisance.* The outside parking or outside storage on or abutting residential district properties of recreational vehicles or equipment in violation of the standards set forth in this division is found to create a nuisance.
